Slotter Inspection, Basic Recondition

- The slotter will be completely disassembled cleaned and inspected.
- All parts will be fully inspected to determine if they are still completely functional.
- If all parts can be reused the slotter will be re assembled with ALL NEW:
 1. Bearings
 2. Spacers (fit to size)
 3. Keys
 4. Pins
 5. Support plate (pined on center)
 6. Front, Rear Bushings
 7. Arbor Bolt, Nut, Spacers (customer to fit arbor spacers)

If after inspection there are parts that need to be replaced Davenport will contact the customer with an estimate for the necessary repairs
